# Anaesthetist Review

| Patient name | Date of birth | Age | Hospital number | Phone number | Consultant | NHS number |
|---|---|---|---|---|---|---|
| Nicola Mcnamee | 13th January 1988 | 38 | 147384 | +447747819245 | Miss Cheang | - |

| Procedure | Priority | Hospital reported BMI | Patient reported BMI | Anaesthetist ASA grade | Nurse ASA grade |
|---|---|---|---|---|---|
| Septorhinoplasty including graft/implant following trauma or excision of tumour (including attention to turbinates) | - | 21.19 | 23 | 2 | Not recorded |

## Medical History

**Previous ECG - Brugada**
**COVID-19 -ve**
**COVID-19 vaccinated**
**Anxiety**

### Comments

Email sent to Dr Adhya in reference to his letter asking if he could please amend his recommendation to avoid propofol as this is not in keeping with current evidence - I have CC'd pre-assessment and Dr Kochhar into this (added by Bruce Young on 23 Jun 2023 at 08:51)

I note the reply email from Dr Adhya that he will amend his letter. I have previously discussed this patient with surgeon. Propofol bolus induction, vapour anaesthesia, enhanced care one night. (added by Arun Kochhar on 26 Jun 2023 at 10:08)

## Admissions

No previous medical admissions.

## Anaesthetic History

**Difficulty opening mouth**
**Family history of anaesthetic problems**

**Stop Bang: 2 METS:**

## Medication

| Name | Dose | Frequency |
|---|---|---|
| Aripiprazole | 5mg | OTHER Daily |

| Name | Dose | Frequency |
|---|---|---|
| Zyban | 150mg | OTHER Daily |

## Allergies

**Anaesthetic-drugs**

## Social Health

**Smoker:** No

**Drinker:** Yes

Audit C alcohol consumption score indicates low risk
History of using vape devices
Patient is an ex-smoker who stopped smoking in January 2021 and used to smoke -23 cigarettes a day for -1 years

## Observations

| | |
|---|---|
| **Height** | **164 cm** |
| **O2 Saturation** | **97%** |
| **Weight** | **57 kg** |
| **Heart rate** | **88 bpm** |
| **BMI** | **21.19** |
| **Peak flow** | **0 l/min** |
| **BP (1)** | **111/62 mmHg** |
| **Blood glucose** | **0 mmol** |
| **Respiration rate** | **16 bpm** |
| **ECG** | **YES** |
| **Urinalysis** | |
| **Temperature** | **36.5 °C** |

## Airway Assessment

No airway assessment.

## Physical Examination

No physical examination.

## Investigation Results

**22 Jun 2023**

| | | | |
|---|---|---|---|
| Hb | 132 | Na | 140 |
| WBC | 7.9 | K | 4.3 |
| PLTS | 369 | Ur | 3.2 |
| INR | | Cr | 66 |
| APTT | | ECG | |
| G + S | | CXR | |
| MRSA | | Other | |

## Pre-operative issues and impressions

## Further investigations required

## Clinic Plan

**Medication advice given to patient?:** No

**Approved to proceed to surgery?:** Yes

**Medication advice:**

**Advice / information given to patient:**

## Heart

### Cardiac interventions and Cardiologist

Patient has undergone an ECG on/in Brugada *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:34)*

Patient has cardiologist *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:34)*

## Lungs

### Covid

Patient has completed COVID-19 vaccination course *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

Ethnicity: Irish *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

Initial COVID-19 screening negative *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

Details of COVID-19 vaccination: tbc *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

## Brain

### Anxiety

Sometimes feel anxious, currently on medication which keeps it under control. *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

Patient has anxiety issues *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

## Organs

### Pregnancy

Patient is not pregnant *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:33)*

## Bowels

No reported conditions.

## Musculoskeletal

No reported conditions.

## Lifestyle

### Dependents

After discharge the patient will be looked after as described: My partner *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient does not live alone *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient has no dependents living with them *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

### Residence Details

There are no steps to the front door of the property *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient lives in a house *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
There are no steps inside the property *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient will NOT need adaptions to their property *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Both upstairs and downstairs toilets *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient has a walk in shower *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient has a bath *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

### At Home Care

Patient does not use any walking aids *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*
Patient wears glasses *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

### Employment Status

Patient requires a sick note *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

### Smoking

Number of years patient smoked: -1 *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

Patient stopped smoking in 2021-01 *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

History of using vape devices *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

Patient used to smoke. Per day: -23 *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

### Drinking

Audit C alcohol consumption score indicates low risk *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

---

## Medical History

### Anaesthetic Family History

> Ask patient for the list of anaesthetic drugs that her Cardiologist reports she cannot have *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:32)*

Patient has a family history of anaesthetic problems as described: I have long qt and brugada so not able to take all anaesthetics. My cardiologist has advised the list. *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:32)*

### Teeth Mouth Neck

Patient has limited mouth opening as described: To be assessed at Pre-Assessment *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:32)*

### PONV

PONV risk assessment: 0 *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:32)*

---

## Medication and Allergies

| Medication | Dose | Frequency |
|---|---|---|
| Aripiprazole | 5mg | OTHER Daily |
| Zyban | 150mg | OTHER Daily |

### Medication

No notes available.

### Non-Prescribed Medications

> Herbal medication to be omitted 2 weeks prior to surgery *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

### Allergies

Patient has had allergic reaction(s) to drugs as described: Undertook an ajmaline test which picked up Brugada syndome. *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

Patient is allergic to anaesthetic drugs *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

No evidence of anaphylactic reaction *(added by Katy Fitzpatrick on 20 Jun 2023 at 13:31)*

## Observations

Height (cms) : 164 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
Weight (kgs) : 57 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
BMI : 21.19 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
Blood Pressure (mmHg) : 111 / 62 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
Heart Rate (bpm) : 88 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
Oxygen Saturation (%) : 97 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
Temperature (C) : 36.5 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
Respiration Rate (bpm) : 16 *(added by Florence Odulate on 21 Jun 2023 at 11:11)*
ECG : YES *(added by Florence Odulate on 21 Jun 2023 at 11:11)*

## Investigation results

**22 Jun 2023**

| | | | |
|---|---|---|---|
| ECG | | CXR | |

**Clinical Summary**

Enter Clinical Details: Open sept-rhinoplasty
MRSA status (this admission): Not Isolated
FOR URGENT ADVICE CONTACT 01622 237555 (NICKLEBY WARD)

**Diagnoses**

N/A

**Procedures**

Open sept-rhinoplasty
Bleeding after the operation can last a week to 10 days. You will need to stay away from crowds of people for 2 weeks to reduce the risk of developing a cold and infections.

Your nose will feel blocked up to 2 weeks and may release blood stained fluid from the nose. Do not blow your nose or sneeze for a few days. Dry or wipe discharge with tissues / gauze.

Do not eat or drink very hot food or liquids (tepid only) Sleep with extra pillows to keep your airways clear and to help reduce any swelling.

Please read the preventing a blood clot leaflet.

Continue to wear the compression stockings until you no longer have significantly reduced mobility relative to your normal mobility.

Please take regular painkillers as discussed by the nurse discharging you.

Avoid constipation. Drink plenty of fluids and take laxatives as directed.

You need to be able to fully control your vehicle and perform an emergency stop prior to returning to driving. Please check with your consultant and car insurance company.

Please contact Nickleby ward on 01622 237555 if you have any concerns

**Special Requirements**

Patient Information (Read in conjunction with leaflet give)
The risk of develeoping blood clots can persist for some weeks after discharge. There are certain signs to look out for that could mean you have a blood clot: swelling/leg pain/ redness/ new onset shortness of breath/ chest pain or coughing up blood. You should contact your doctor immediately if you have any of these symptoms after you go home, or dial 999 in the event of an emergency.
Venous Thromboembolism (VTE prevention)
Prescribed while an inpatient N
Continued on discharge N
Anti-embolic stockings requested N

**Medication and Medical Devices**

Co-amoxiclav 500/125mg tablets. Take ONE tablet THREE times a day for SIX days.
Morphine Sulfate (Oramorph) 10mg/5mL oral solution. Take 5mL (10mg) up to FOUR times a day when required for pain relief. Supply 100mL.

Dr Marek Lukac (GMC6113422)
Pharmacist name: N Howard 28/06/2023

**Safety Alerts**

Brugada syndrome - list of medication to be avoided/preferably avoided attached to patient's documentation

**Plan and Requested Actions**

Lifebox recovery will be activated on your discharge, please complete the diary if you are able to, but be aware this is not an interactive system, we can not reply to your notes, but will phone you if you have highlighted any concerns, if your concerns are urgent please phone your discharging ward directly.
